

Great philosophers expose or propose this idea in one or another way

HUMAN - UNITY INCLUSIVE DECISION TAKING

Kant's moral system:

- The only good thing is good will
- Humanity as an end in itself –so that we only serve ourselves we can use ourselves just as a tool
- Autonomy
- Categorical Imperative: “act in accordance with a maxim of ends that it can be a universal law for everyone to have” (MM 6:395).

HUMAN - UNITY INCLUSIVE DECISION TAKING

Inclusive decision taking signifies or implies transparent criteria, universality

HUMAN UNITY CRITERIA

The criteria (cause) of human unity or inclusive decision taking is that in this way we will logically take decisions meant only to benefit us all mutually and universally and will not take decisions meant to harm and destroy (each) other as we do now

A DIFFICULTY TO IMPLEMENT HUMAN UNITY

Human unity cannot be a state initiative (it is not even a political issue since political issues refers to using violence and strategy)

Human unity is a responsibility of each person and it is contradictory and a nonsense to attribute this responsibility to the state since a state means exclusion or partiality (the opposite to inclusion and universality)

INSTITUTION OF HUMAN UNITY SHARING SECURITY

A public, open and transparent world experts meeting aimed at setting up a shared security system and at recycling destruction means into means for serving Humanity.

INCLUSIVE COMMUNICATION & DECISION TAKING SYSTEM

Inclusive communication does not only includes information on what is proposed and is to be done but also the criteria for universal benefit which results in such initiative or causes it.

Once published those criteria and other needed data regarding to its implementation, it is enough to proceed with the execution of the initiative as long as there is not no more knowledge on any possible improvement or about any possible pernicious effect of it on anybody

INCLUSIVE DEVELOPMENT

Human development is the aim of the so-called peace dividend, or human asset. Resources previously intended to destruction purposes are now first intended to inclusion purposes. The priority is to provide the means of a dignified live to those who need it more (most underdeveloped areas) and also the means for their integration in the human community.

INCLUSIVE DEVELOPMENT

A Women Working Group deals with women assuming their freedom and destiny.

INCLUSIVE DEVELOPMENT

Common, coordinated and cooperative development of those technologies serving to improve human quality of life and capabilities as: Food, Healthcare, Environment, Energy, Manufacture and Mobility (infrastructures included)

HUMAN UNITY BUSINESS

Since discrimination requires irrationality, cosmopolitanism (languages knowledge, int'l knowledge, use of just common sense, etc.) can't be avoided by the state and companies will buy it since it is a more and more important asset in a global environment where the biggest majority share just common sense.

Human unity business is as simply as this: the money you expend in a company which does not aim at serving humanity it is not just unsustainable as people is perceiving now, it goes mostly for destruction, while a company meant to serve humanity fully reinverts in your benefit.
