

ROADMAP TO HUMAN UNITY

MADRID CONGRESS 2021

Areas of the Congress 'Roadmap to Humanity'

1. HUMANITIES & EDUCATION

This area refers to the concept of humanity in the various cultures.

Every culture has evolved in a limited, partial, environment, but unavoidably have elaborated a vision of humanity and along with it probably also of peace or unity.

We invite 20 experts from different cultures to participate in the Congress. Religious expressions as Hinduism, Judaism, Buddhism, Christianity, Islam as also other non-religious teachings as they could be some political theories as Confucianism, Moísm, Cosmopolitanism, aboriginal people's views....

We are applying for UNESCO cooperation as mediator and participant.

We will contact with those experts asking them for a brief resume of their paper and then we will send them a formal invitation to the Congress.

The contributions from those experts and their dialogues will be published in the Congress Final Open Document and also they will be submitted to the Education Science area.

Areas of Congress 'Roadmap to Humanity'

2. DEVELOPMENT

This area refers to most urgent humanitarian needs aiming at proposing and organizing its most immediate coverture, as also the integration of the underdeveloped areas with the rest of the World in terms of communication, infrastructure and economy.

We are inviting people who know the situation in some countries in Central Africa (People's Republic of Congo, Central African Republic, Burundi) and others areas as Haiti, Afghanistan, Yemen....we are also inviting some NGOs as BRAC, MSF, Care Intl and UN agencies, not only as participants but as mediators and organizers, as UNICEF, FAO, UNDP, WFP.

We will communicate with those persons/organizations asking them for a submission paper and then we will send them a formal invitation to the Congress.

The contributions of those experts who know the development needs of their areas will be published in the Congress Final Open Document not only with their immediate concrete needs but also with their consideration on the causes and solutions generically valid to put an end to underdevelopment or misery in all parts of the world and set up the conditions for a dignified and humanity integrate life for everyone.

Once reached this public and open consensus and knowledge about objectives and processes of human development, we consider this our primary task on human security; to which we allocate resources or to recycle current ones dedicated to partial security – opposed to each other- as also to unify human consciousness and will.

Areas of the Congress 'Roadmap to Humanity'

3. SCIENCES

Sciences area is divided in six working groups with 8 participant each whose task is to propose a global cooperation system in each of those fields of common human development.

The proposed working groups are:

1. Food
2. Health
3. Environment
4. Energy
5. Manufacture
6. Infrastructure, Logistics, Mobility

We will invite experts on those subareas among university specialists, organizations and most relevant companies and invite them to participate sending a note about their paper in the Congress.

The companies participating in the Congress, at least four by group, are asked for a contribution of 40000 euro as participation fee (each delegation consisting of two people).

Those experts' contributions about human cooperation, coordination, common development and sustainability in each of their respective sectors will be published in the Congress Open Final Document. The Projects shall be presented including their implementation conditions as costs, investments, priorities, innovation lines, special and temporal range of the agreements to be reached for its implementation....all those conditions could be generalized or standardized by the Congress Communication Croup.

Once achieved this public and open consensus and knowledge about human common development objectives and processes, it can be analyzed by anyone, particularly by other experts or stakeholders in order to prevent obstacles or contribute with improvements before its implementation.

Areas of the Congress 'Roadmap to Humanity'

4. SECURITY

Human security is today a competence of the states, therefore all of them are invited to participate with help from the UN, we are applying for its valuable support.

We will invite 20 signified specialists in security, defense, taking into account its origin so that all geographical zones are included and asking for an advance of their vision on a common human security system and then they will be send a formal invitation to the Congress.

The task of this working group is to compose a common proposal for a global security system whose evaluation will be based on the estimation of bigger and faster disarmament its implementation might generate.

It is to be considered the welfare of those demobilized and affected by disarmament.

The final proposal is to be presented to all states and they shall consult with their citizens if they agree with the implementation of the common global security system and once all agree, it has to be carried out transparently.

The agreement will be also published in the Congress Final Open Document and submitted to the Education area.

Area of the Congress 'Roadmap to Humanity'

5. WOMEN ISSUES

Women have last word.

Therefore, we will invite signified specialists for them to send their paper proposals about women empowerment, then a formal invitation will be sent to them for their assistance.

This working group task is to reach a consensus on a common proposal for a common system of global governance considering immediate measures to stop every abuse of women now.

This agreement will be published in the Congress Final Open Document and submitted to the Education area.

Area of Congress 'Roadmap to Humanity'

6. COMMUNICATION

This Working Group will be in charge of Global Coordination and Communication and therefore also the results of this Congress, including the validity criteria for the execution or implementation of the agreements reached in it.

We will invite the main communication companies considering main linguistic areas inviting them to send us a proposal for a system of standardized global communication as also a channel for it.

The Communication Working Group will agree about the Standardization Method of Global Communication and its Channel and it will be used to communicate the Congress results, the Final Document.

The criteria, characteristics and bases of the agreement on Global Communication Method will be published in the Congress Open Final Document and also submitted to the Education area.

The Communication Group is the first Group to be formed because its task includes the call for the Congress and their delegates will be members of the Congress Organizing Committee.
